

T.FLOWERS

THE FLOWER SUPPLY CHAIN **BORDERLESS**

From grower to point of sale.
One network, one point of contact.

Specialised transport and distribution
for the floriculture sector in Italy and Europe

FLOWER TRANSPORT IS **COMPLEX**

WE MAKE IT SIMPLE

Managing a fragmented supply chain means risks, extra costs and quality loss

TOO MANY INTERMEDIARIES

More handovers, higher costs and fragmented accountability

COLD CHAIN

Uncoordinated handling can compromise product quality.

UNRELIABLE DELIVERY TIMES

Poor visibility along the distribution chain.

LAST-MILE DISTRIBUTION

Reaching garden centres, shops and points of sale requires a specialist network.

THE ANSWER IS **T-FLOWERS**

An integrated network with specialist expertise, linking production hubs with widespread distribution, through a single operational point of contact.

Aalsmeer (NL)

European hub

Sanremo (IT)

links to the flower production districts

Torre Annunziata (IT)

Logistics and distribution hub for Italy and Europe

WHAT MAKES OUR SERVICE EFFECTIVE

TEMPERATURE CONTROL

Active monitoring with downloadable reports.

SECURITY & TRACEABILITY

Fleet with anti-intrusion systems and rapid response protocols.

EURO 6 / ELECTRIC FLEET

We invest in sustainability to reduce our environmental impact.

GEOGRAPHICAL COVERAGE

From production districts to points of sale throughout Italy and Europe.

THREE STRATEGIC HUBS AN INTEGRATED NETWORK

Connecting the international flower auctions of Aalsmeer (NL) with the Sanremo (IT) growing districts and the Torre Annunziata (IT) logistics hub, we ensure a seamless flower supply chain, from harvest to delivery.

OUR COVERAGE ACROSS ITALY MAKES TRANSIT TIMES PREDICTABLE
